EXECUTIVE DIRECTOR MESSAGE

“

It has been a great privilege to be the Executive Director of Calgary Prostate Cancer Centre and my heart will always be with you.

The theme of the 2020 Annual Report is strength, and in 2020 Calgary Prostate Cancer Centre (PCC) entered into a period of complex challenges that demanded quick decision-making and a new way of thinking. Our staff rose to the challenge and demonstrated remarkable strength from the very beginning of the pandemic. This report celebrates the innumerable ways in which our staff, urologists, partners, and volunteers demonstrated strength in a time of turmoil.

After ten years as Executive Director, I will retire at the end of June 2021. Four principles have guided my work over the last decade:

FIRST — To set priorities and stay focused.

SECOND — To never give up, to keep moving forward, and to keep working hard.

THIRD — To be open and transparent to our donors and partners on how we put your dollars to work. We measure our successes and collect data to prove we are worthy of your continual support. As a charitable organization, we would not exist without your support.

FOURTH — To practice what we preach. We are truly patient-focused and we examine our mistakes or successes through a patient-centric lens.

No leader accomplishes anything alone. So many people are involved in PCC's transformative achievements that occurred over the last ten years under my leadership.

I want to express my deepest gratitude to our staff and volunteers.

PCC's Board of Directors offered me invaluable advice and support and their dedication to PCC is truly astounding. I believe I leave the Centre well-positioned to meet new opportunities and challenges in the coming years.

It was a pleasure working with outgoing Board Chair, Jon Truswell. Jon's leadership, direction and vision for the future enabled Calgary Prostate Cancer Centre to exceed all growth expectations and become renowned for wrap-around patient care, prostate cancer education, and research.

A handwritten signature in black ink, reading "P. Heard".

PAM HEARD

Executive Director,
Calgary Prostate Cancer Centre

BOARD CHAIR MESSAGE

It goes without saying that 2020 was a very challenging year for Calgary Prostate Cancer Centre. I can't express enough gratitude to the staff at PCC who rose to the challenges brought on by the COVID-19 pandemic and repositioned our Centre to adapt to those challenges. Together, they moved the Centre forward more efficiently with bigger and brighter opportunities on the horizon.

PCC staff, led by our Executive Director, Pam Heard, recognized that we needed to remain open to continue caring for our patients. We bought PPE, implemented enhanced cleaning measures, and established processes and procedures that would keep staff and patients safe. We moved most clinics and programs online so we could continue to see people from the safety and comfort of their homes. While many of these initiatives started as mitigation measures, they soon proved to be more efficient and requested than our prior in-person clinics.

Thank you to our Executive Director, Pam Heard, for your tireless efforts on behalf of PCC over the last decade. While I wish you the best in your retirement, I am comforted knowing that you will never be far away from your PCC home.

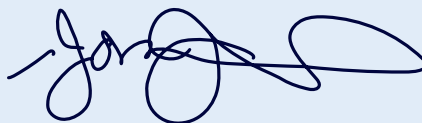

To our staff and volunteers, while we say thank you every year, in 2020 it couldn't mean more. Your courage and strength in the face of the tremendous challenges was recognized by all our stakeholders. We are grateful for you.

To our Board, I thank all of you for your commitment. To those whose vision will help shape the next twenty years of Calgary Prostate Cancer Centre, dream big.

A heartfelt thank you to our departing Board Member, Maryse St-Laurent. This year, we welcomed a new Board Member, John Piasta, Partner at Bennett Jones LLP.

June 2021 marks my departure as a Board Member as we welcome new Board Chair Keith Steeves. Keith joined PCC's Board of Directors in 2016, and his experience and leadership continue to make a significant contribution across our organization.

Wishing all of you good health and my best.

JON TRUSWELL

Board Chair
Calgary Prostate Cancer Centre

OUR PURPOSE

OUR VISION

To have a **healthy male** population free of advanced **prostate cancer**.

OUR VALUES

I.C.A.R.E

- Integrity
- Compassion
- Accountability
- Respect
- Excellence

OUR MISSION

We fight prostate cancer by delivering one-stop support to men and their families through rapid access to personalized care, research, and education. We promote overall health and well-being, inspire hope, and reduce the impact of prostate cancer in our community.

2020 RESEARCH STATISTICS

In many ways, 2020 proved to be one of the most challenging years any of us have ever experienced. With pandemic-related lockdowns and new health and safety policies and procedures in place, our lives have changed. These changes intersect at patient care. At the start of the pandemic, on-site research activities were temporarily paused to evaluate the situation and ensure the safety of all staff and patients. It became clear early on in the pandemic that our patients needed our on-site services and we needed to find a way to deliver them safely.

The Research department quickly shifted to create and implement new safety policies.

What was once a routine research visit is now a process of social distancing, mask wearing, and screening. We implemented a new patient entryway into the Research department. We are now all familiar with this routine and have become experts in PPE — a term most people had not heard of before the pandemic.

Although 2020 had its challenges, it also proved to be a year of vast growth, learning experiences, and diverse patient care options. PCC Research staff worked with sponsors and vendors to ensure the continuity of safe patient care. This required agility to adapt to new safety measures, as well as flexibility from both staff and patients.

One example of this is patient study is medication dispensation. Although medication is normally provided at on-site patient visits, Research staff pivoted to accommodate for patients' unique needs. Whether this meant shipping medication to a patient's care home or handing patients their medication through drive-by pick-up outside PCC's entrance. This flexibility resulted in every research patient receiving their required study medication.

Staff, patients, and sponsors have come together like never before. Our connections and understanding of one another have grown deeper and stronger, which has allowed us to keep providing the best possible patient care. ♦

CLINICAL

The strength and tenacity of PCC's Clinical team kept our Centre's programs running smoothly through the transition from in-person to virtual services.

The Clinical team continues to move forward with innovative patient care by listening to patient's feedback and evolving our programs as new treatment options become available. Although we have had to move some of our programs and services to a virtual format, there were special exceptions where patients were seen in person. In these circumstances, the Clinical team adhered to all healthy and safety guidelines to ensure a safe environment.

The team is currently developing a more robust nursing model that will incorporate both our current clinics and add services that support lifestyle change. We know that the expansion of these services will benefit the overall mental wellness of our patients. ♦

“

Thank you for your kindness and rapid response in addressing my post-surgery needs. Going to emergency in the usual manner would have meant a very long and extremely uncomfortable wait rather than bringing about a rapid end to my discomfort. You are truly a lifesaver.

— PATIENT

“

PCC was fantastic and I really appreciate the kind support they offered me. The Centre exemplifies a patient-centered care system and I feel very fortunate to live in Calgary and to have received the care that I did.”

— PATIENT

OUR VOLUNTEERS

Due to the COVID-19 pandemic, PCC made the difficult decision to temporarily suspend our volunteer program until health restrictions are lifted. Their absence didn't go unnoticed. Every program at our Centre missed our wonderful volunteers.

It's hard to capture into words how seventy-five men and women can enhance the environment and happiness of both our staff and patients simply by just being. We have enjoyed their reliability, compassion, generosity, attention to detail, sense of humor, and so much more over the past twenty-one years.

Although we were not able to see our volunteers in person, some of these incredible individuals stepped up to help with our programs virtually. Whether it was for peer support, treatment option classes, or donor thank you calls, they showed us their true strength and continued to show up for us.

Thank you to our wonderful volunteers. We miss you and look forward to the day when we can be reunited again. ♦

MAN VAN™

2020 was seemingly going to be a record-breaking year for our MAN VAN program. Clinics in January and February 2020 saw above average attendance. Unfortunately, due to the COVID-19 pandemic, these clinics came to a halt in March 2020 and were unable to continue for the rest of the year. This decision, although difficult, was made to protect the safety of our staff, volunteers, and clients.

Our **VANs** have now been retrofitted to adhere to Alberta Health Services safety protocols. We have installed plexi-glass dividers, hand washing stations, and spaced apart phlebotomy chairs. Our **VANs** are also equipped with an abundance of personal protective equipment. We are hopeful that the **MAN VAN** program can return to the road again soon so we can reach more men with our free health checks.

Thank you so much to our presenting partners, *AGAT Laboratories*, *Bayer*, and *Nutrien*, for continuing to support our work over the past year. Thank you to the *Calgary Fire Department* (Crews 34 and 41) for keeping our vans safe and secure. The **MAN VAN** program is stronger because of you. ♦

FEATURED EVENTS

THE BIG BALL 2020

On January 31, 2020, shortly before the city shut down due to the COVID-19 pandemic, we were lucky enough to have one last get together at Hotel Arts in the name of giving back. The fourth annual Big Ball Gala hosted over 450 guests and raised a record of over \$280,000 in support of men's mental health.

This year's event included numerous coveted live auction items, including various trips and a \$3,500 Delta Airlines voucher. Additional highlights of the night included a cameo performance by local singer and songwriter Michael Bernard Fitzgerald, as well as The Bill Brooks Punch Wall, Side One Band, and Dr. Shelley Spaner's powerful address. Hockey legend Kelly Hradek also made an appearance in the form of a [touching video](#) which highlighted his strength and perseverance throughout his battle with mental health.

VILLAGE NUTRAISER

Calgary Prostate Cancer Centre has been fortunate to be the charity of choice for the annual Village NUTraiser for the past eight years. Thanks to this incredible event, we have raised over \$65,000 in funds.

2020 was no exception. Despite in-person events being postponed or canceled, Village Brewery and Bottlescrew Bill's found a way to ensure the annual NUTraiser still went on. The legendary Bret 'Hitman' Hart created a Bull Ball Beer that was sold in a 32 ounce growler. Then, everyone who bought a growler, met virtually over Zoom to have a digital cheers.

Thank you to the people who made this event possible — Jim Button, Geoff Allan, Stuart Jackson, and Bret Hart. Together, PCC is stronger because of community partnerships like this.

THE LOCAL DIVE

Calgary Prostate Cancer Centre (PCC) held the inaugural *The Local Dive* Livestream event on October 21st, 2020. This fundraiser and awareness initiative served as a unique kickoff to our annual Keep It in Calgary campaign in November. Prominent guests such as Bret 'Hitman' Hart, Brett Wilson, David Spence, Kelly Hrudey, Licia Corbella, and more shared inspirational stories about overcoming adversity and hardship. True strength shined through with each guest interview. The event was hosted by local 98.5 Virgin Radio host, Fuzzy, and Postmedia columnist and PCC Board Member, Bill Brooks. Partnerships with local social media influencers helped to elevate our social media reach and target new audiences who were previously unfamiliar with Calgary Prostate Cancer Centre.

Almost 800 viewers tuned into the event and over \$13,000 was raised online!

2020 PRIDDIS GREENS CHARITY CLASSIC

The Priddis Greens Charity Classic Committee switched the format of the 2020 tournament in order to adhere to health and safety guidelines.

Previously, up to forty teams registered for the tournament and enjoyed the beauty of the golf course. This year, the committee sent out an invitation to past participants to join the modified two-day event. Due to the COVID-19 pandemic, golfers would have to forfeit certain luxuries such as seated dining and maintain limited social interaction. Entry fees were increased to \$10,000 per team, and 12 philanthropic teams stepped up to participate. Despite the reduced number of teams, the event was still a strong success.

The 2020 Priddis Greens Charity Classic raised \$170,000 for Calgary Prostate Cancer Centre. Thank you to everyone who made this possible!

Michele MacDonald, Lynne Ramsay, Dedie Hudson, Celia Gaudet

2020 REMINGTON CHARITY CLASSIC

The strength and resiliency of the Remington Charity Classic Committee was most evident at this year's event. Despite the event being modified this year, participants were still able to enjoy the scaled down festivities while socially distancing outdoors at the Stewart Creek Golf Course.

The 2020 Remington Charity Classic raised an astonishing \$325,000!

Thank you to each of our committee members, sponsors, and participants for persevering during these turbulent times and helping to make an impact on the lives of men in Calgary and Southern Alberta. ♦

KEEP IT IN CALGARY

Calgary Prostate Cancer Centre’s annual Keep It in Calgary fundraiser encourages Calgarians to **#LiveLocalGiveLocal**. The money raised from this campaign supports local research and awareness initiatives, as well as clinical treatment for men in Southern Alberta who have been diagnosed with prostate cancer.

With the help of our media partnerships, the campaign reached 281,817 people and raised over \$100,000. These numbers alone highlight the strength and resiliency of our community in such an uncertain time.

Several local businesses joined the campaign to create specialty beers and cocktails with proceeds benefiting Calgary Prostate Cancer Centre.

A special thank you to Don Bayrack and Trail Appliances for being our incredible matching donors for this year’s Keep It In Calgary campaign. With the help of their generosity, every dollar up to a total of \$50,000 was matched. The success of this campaign would not have been possible without the both of you. ♦

MEET SHELLY NORRIS

*Shelly and Alan Norris
Courtesy of Bill Brooks | Calgary Herald*

My relationship with Calgary Prostate Cancer (PCC) began over ten years ago. My husband Alan participates in the Priddis Greens Charity Classic every year, so before my direct involvement began with the Centre, I was already aware of PCC and their work. What I was not aware of is that one in seven men in Alberta are diagnosed with prostate cancer in their lifetime – and that three of my close friends would eventually be included in that statistic.

My friend Dave was forty-nine years old when he was diagnosed with prostate cancer. As a single man, he felt he needed help to digest this new diagnosis and journey. I attended all the information and education sessions at PCC with him and learned a great deal about the disease. During this time, another friend of mine, Bob, was diagnosed with prostate cancer but did not take his diagnosis seriously. He chose to opt out of treatment, and unfortunately, we said goodbye to him several years ago. A third friend of mine, Barry, was also diagnosed with prostate cancer and I was a part of his journey too.

Later on, we discovered my husband Alan's PSA score was on the rise and I knew prostate cancer was moving into our family. In 2019, after a few years of active surveillance, Alan opted for a radical prostatectomy. I was able to encourage, coach, and walk beside him throughout his journey. I was familiar with the programs and services PCC provides and we both set realistic goals for his recovery. Everything about the

Centre is forthright and innovative. The PCC staff accurately described what Alan would experience before and after surgery, and emphasized that the most important part of the healing process was time and patience.

Today, Alan is alive and well — thanks to the wealth of information and exceptional care he received at PCC. I continue my relationship with PCC by financially supporting their work in research. I believe this is the solution to their vision to have a healthy male population free of advanced prostate cancer.

To men in our community, please continue to educate yourselves about prostate cancer and the importance of early detection. To the community, please get involved and support your loved ones — prostate cancer is not contagious. Please join me in supporting Calgary Prostate Cancer Centre so that when someone in your circle is diagnosed, you will know where to direct them. ♦

**IN THE FUTURE, WE WANT EVERYONE LIVING WITH PROSTATE CANCER
IN CALGARY AND SOUTHERN ALBERTA AREA TO BE ABLE TO SAY:**

“I can enjoy life”

“I was diagnosed early”

“I understand my treatment options,
so I can make good decisions”

“I feel part of a community and I'm
inspired to give something back”

“I am secure in knowing my family
will have a place to go if they need
any support”

“I get the treatment, care, and
aftercare I need that are best
for my cancer and my life”
